

**POST-CONSTRUCTION WET FLOODPROOFING
STRUCTURAL CERTIFICATION**

Building Owner's Name: _____

Building Street Address: _____

Property Description: _____

(County Tax Map Number, ie., 000-00-00-000)

Building Use _____

Square footage of crawlspace or enclosure(s): _____ sq. ft.

No. of permanent flood openings in the crawlspace or enclosure(s)

within 1.0 foot above adjacent grade: _____

Total net area of flood openings: _____ sq. in.

Engineered flood openings? Yes No

I HEREBY CERTIFY:

1. That the proposed structure will utilize flood resistant materials for the exterior and interior components and elements (i. e. foundation, wall framing, exterior and interior finishes, flooring, etc.) below the base flood elevation (BFE) in accordance with 44 CFR 60.3(a)(3) of the NFIP regulations.
2. That the mechanical, electrical or other utility equipment will be located above the BFE or flood proofed so that they are contained within a watertight, flood proofed enclosure that is capable of resisting damage during flood conditions in accordance with 44 CFR 60.3(a)(3), and that sanitary facilities were designed with backflow prevention devices meeting Colleton County standards.
3. That the proposed structure will be anchored to prevent flotation, collapse, or lateral movement of the structure in accordance with 44 CFR 60.3(a) of the NFIP regulations. All of the structural components have been designed so that they are capable of resisting flood related forces including hydrostatic, buoyancy, hydrodynamic and debris impact forces.
